

HATCH: HOME AUTOMATION TALK CONTROLLED HOUSE

- Does loss of vision or limited mobility keep you from doing what you once did easily?
- Is it getting hard to do simple things like use the phone, turn off lights, adjust the thermostat?

The Assisting Hands® **HATCH** system makes those things as easy as saying the words!

Tell your **HATCH** spot to call your daughter. Tell your **HATCH** spot to “make the house a little warmer.” *It’s like having a butler at your call!*

“Turn on the lamp.”

“Call Susan in Boston.”

“Make the house a little warmer!”

“Add oatmeal to the shopping list.”
